INDEX TO VOLUME 27

Subject Index

Abortion

Abortion Mortality Is Low; Anesthesia-Related Deaths Are of Rising Importance, Digest, p. 181.

Abortion Training in Obstetrics and Gynecology Residency Programs in the United States, 1991–1992, H. T. MacKay and A. P. MacKay, p. 112.

Acceptability of Medical Abortion in Early Pregnancy, B. Winikoff, p. 142.

Factors Hindering Access to Abortion Services, S. K. Henshaw, p. 54.

Further Tests of Medical Abortion, Update, p. 3.

Impact of Requirements for Parental Consent on Minors' Abortions in Mississippi, Research Note, S. K. Henshaw, p. 120.

Induced Abortion Might Elevate a Woman's Breast Cancer Risk in Later Years, Digest, p. 41.

Knowledge and Perceptions of Medical Abortion Among Potential Users, S. M. Harvey, L. J. Beckman, M. A. Castle and F. Coeytaux, p. 203.

Mifepristone and Vaginal Misoprostol Are Effective, Acceptable and Inexpensive Medical Abortion Regimen, Digest, p. 223.

Mifepristone in Midtrimester, Update, p. 140.

Mifepristone Softens the Cervix, Update, p. 2.

Misoprostol May Induce Second-Trimester Abortion with Fewer Side Effects Than Other Prostaglandins, Digest, p. 43.

New Nonsurgical Abortion Method Proves to Be 90% Successful in Early Trial, Digest, p. 131.

Repeat Abortion and Use of Primary Care Health Services, J. M. Westfall and K. J. Kallail, p. 162.

Rural MDs Shun Abortion, Update, p. 226.

U. S. Abortion Attitudes, see **Public Opinion**.

Using Induced Abortion to Measure Contraceptive Efficacy, see **Contraception: General**.

Barrier Methods

Combined Use of Condoms with Other Contraceptive Methods Among Inner-City Baltimore Women, J. S. Santelli, M. Davis, D. D. Celentano, A. D. Crump and L. G. Burwell, p. 74.

Failure Rates for Female Condom Are Moderate; Incorrect Use Is Common, Digest, p. 132.

Intravaginal Barriers: Reliable Protection Against Pregnancy and STDs? Letter, J. F. Cattanach, p. 176.

Predictors of Condom Acquisition After an STD Clinic Visit, L. O'Donnell, A. San Doval, R. Duran and C. R. O'Donnell, p. 29.

Short-Term Acceptability of the Female Condom Among Staff and Patients at a New York City Hospital, E. L. Gollub, Z. Stein and W. El-Sadr, p. 155.

Women, HIV and Condom Use, Update, p. 226.

Contraception: General

Combined Use of Condoms with Other Contraceptive Methods Among Inner-City Baltimore Women, see **Barrier Methods**.

Initial Expenditures for Contraceptive Methods May Belie Their Cost-Effectiveness over Time, Digest, p. 178.

Using Induced Abortion to Measure Contraceptive Efficacy, F. E. Skjeldestad, p. 71.

Contraceptive Research

Still Waiting for the Contraceptive Revolution, Special Report, M. Klitsch, p. 246.

Users Like Hormonal Ring, Update, p. 98.

Evaluation of Programs

Impact of a Comprehensive Chlamydia Prevention Program in Wisconsin, S. D. Hillis, A. Nakashima, L. Amsterdam, J. Pfister, M. Vaughn, D. Addiss, P. A. Marchbanks, L. M. Owens and J. P. Davis, p. 108.

Impact of an Increase in Family Planning Services on the Teenage Population of Philadelphia, see **Teenagers**.

Special Program Fails to Improve Mexican American Women's Access to and Adequacy of Prenatal Care, Digest, p. 44.

Understanding the Impact of Effective Teenage Pregnancy Prevention Programs, see **Teenagers**.

Fertility: Planning and Effects

Black-White Infant Mortality Differential Has Grown in Recent Decades and Will Persist into Next Century, Digest, p. 267.

Consequences for Children of Their Birth Planning Status, N. Baydar, p. 228.

Does the Wantedness of a Pregnancy Predict a Child's Educational Attainment? A. Myhrman, P. Olsén, P. Rantakallio and E. Läärä, p. 116.

Having a Premarital Birth Reduces the Likelihood a Woman Will Marry, see **Marriage and the Family**.

Intention Status of U. S. Births in 1988: Differences by Mothers' Socioeconomic and Demographic Characteristics, K. Kost and J. D. Forrest, p. 11.

Sex Balance and Family Building, Update, p. 227.

Unwantedness at Birth May Induce Psychological, Social Problems for Adults, Digest, p. 260.

U. S. Births Down Slightly in 1994, Update, p. 187.

U. S. Fertility Rates Fell During 1992, Even Among Teenagers, Women over 30, Digest, p. 91.

Why So Many Twins and Triplets? Update, p. 52.

Government Policy, Programming and Funding

Public Funding of Family Planning Leads to Moderate Reductions in Underweight Births and Infant Deaths, see **Maternal and Child Health**.

Relaxed Medicaid Eligibility Criteria Lead to Better Prenatal Care, but Not to Improved Birth Outcomes, see **Maternal and Child Health**.

Welfare: A Family Heritage? Update, p. 269.

WIC's Big Benefits, Update, p. 98.

Hormonal Implants and Injectables

Characteristics of Injectable Contraceptive Users in a Low-Income Population in Texas, H. Sangi-Haghpeykar, A. N. Poindexter 3rd, D. C. Moseley, L. Bateman and E. D. Reid, p. 208.

Contraceptive Implant and the Injectable: A Comparison of Costs, Research Note, J. M.

Westfall and D. S. Main, p. 34.

Despite Problems, Implant's OK, Update, p. 227.

Evidence for the Acceptability of an Injectable Hormonal Method for Men, Special Report, K. Ringheim, p. 123.

Implant Complications Reported, Update, p. 99.

Implant vs. the Injectable, Letter, A. L. Nelson, p. 175.

Pill Use Before Age 35, Recent Injectable Use May Raise Breast Cancer Risk, see **Oral Contraceptives.**

Risk of Cervical Cancer May Be Slightly Elevated for Users of Injectables, Digest, p. 183.

Trials of the Implant, Update, p. 52.

Intrauterine Devices

Combined Use of Condoms with Other Contraceptive Methods Among Inner-City Baltimore Women, see **Barrier Methods**.

Ectopics and Past IUD Use, Update, p. 186.

IUD and Risk of Endometriosis, Update, p. 186.

New IUD's Insertion Problems, Update, p. 226.

Law and Policy

'Family Cap': A Popular but Unproven Method of Welfare Reform, Special Report, P. Donovan, p. 166.

Impact of Requirements for Parental Consent on Minors' Abortions in Mississippi, see **Abortion**.

Research and 'Privacy' in Conflict, Update, p. 141.

State Actions on Reproductive Health Issues in 1994, Special Report, T. Sollom, p. 83.

Males

Evidence for the Acceptability of an Injectable Hormonal Method for Men, see **Hormonal Implants and Injectables**.

How Old Are U.S. Fathers? Research Note, D. J. Landry and J. D. Forrest, p. 159.

Men at Family Planning Clinics: The New Patients? Special Report, M. M. Schulte and F. L. Sonenstein, p. 212.

Most Vasectomies Are Performed in Urology Practices by Physicians Using Ligation and Local Anesthesia, see **Sterilization**.

Sterilization Among Currently Married Men in the United States, 1991, see **Sterilization**.

Vasectomy Appears Unlikely to Raise Men's Chances of Developing Either Prostate or Testicular Cancer, see **Sterilization**.

Marriage and the Family

Births While Cohabiting Most Common for Blacks, Disadvantaged Whites, Digest, p. 180.

Early Family Formation Linked to School Dropout, Especially Among Blacks, Digest, p. 39.

Having a Premarital Birth Reduces the Likelihood a Woman Will Marry, Digest, p. 221.

Mother's Socioeconomic Background May Play Greater Role in Childhood Development Than Maternal Age, Digest, p. 129.

Mothers' Traits Affect Children, Update, p. 2.

Plausible Increase in Parental Employment Likely to Produce Only a Slight Decline in Child Poverty, Digest, p. 88.

Single-Parent Myths and Realities, Update, p. 98.

Maternal and Child Health

How Many Children with HIV? Update, p. 226.

Improvements in Neonatal Care Have Increased Survival Rates for Very Low Birth Weight Infants, Digest, p. 182.

Infant Deaths Sink to New Low, Update, p. 52.

Is Prenatal Care Cost-Effective? Update, p. 2.

Perinatal Care Payments Topped $25 Billion in 1989, but They Fell $2 Billion Short of Meeting Actual Costs, Digest, p. 133.

Physical Violence Toward Pregnant Women Is More Likely to Occur When Pregnancy Was Unintended, Digest, p. 222.

Public Funding of Family Planning Leads to Moderate Reductions in Underweight Births and Infant Deaths, Digest, p. 92.

Relaxed Medicaid Eligibility Criteria Lead to Better Prenatal Care, but Not to Improved Birth Outcomes, Digest, p. 130.

Romanian Maternal Death Rate Fell by Two-Thirds After the 1989 Revolution, Digest, p. 263.

Short Pregnancy Intervals May Explain Blacks' Rate of Poor Birth Outcomes, Digest, p. 224.

Small Babies' Later Problems, Update, p. 140.

Special Screening Program in West Virginia Reduces Postneonatal Mortality, Digest, p. 261.

Studies Suggest Inherent Risk of Poor Pregnancy Outcomes for Teenagers, see **Teenagers**.

Who Lacks Access to Care? Update, p. 140.

Oral Contraceptives

Combined Use of Condoms with Other Contraceptive Methods Among Inner-City Baltimore Women, see **Barrier Methods**.

No Overall Pill and Breast Cancer Link, but Young Users' Risk May Be Higher, Digest, p. 45.

Oral Contraceptive Users May Be at Some Increased Risk of Cervical Carcinoma, Digest, p. 134.

Pill and Fetal Limb Problems, Update, p. 98.

Pill and Lupus, Update, p. 2.

Pill Use Before Age 35, Recent Injectable Use May Raise Breast Cancer Risk, Digest, p. 265.

Risk of Ovarian Cancer Is Lessened by Childbearing, Pill Use and Hysterectomy, see **Reproductive Health**.

Population Policy and Research

City Living, Update, p. 98.

Postcoital Contraception

Knowledge and Perceptions of Emergency Contraceptive Pills Among a College-Age Population: A Qualitative Approach, C. Harper and C. Ellertson, p. 149.

Pregnancy and Childbirth

Drug for Premature Delivery? Update, p. 227.

Fee Increases and Prenatal Care, Update, p. 187.

Few Ways of Preventing PROM, Update, p. 3.

Leaving the Hospital So Soon? Update, p. 187.

Postpartum and Feeling Poorly, Update, p. 99.

Race, Education Are Factors in Likelihood of Vaginal Delivery After Cesarean, Digest, p. 93.

U.S. Cesarean Rate Falls Slightly, Update, p. 141.

Young, Minority and Disadvantaged Women Exhibit Least Favorable Pregnancy-Related Health Behavior, Digest, p. 259.

Public Opinion

Plea for Globally Responsible Birthing, Letter, R. M. Bowers, p. 128.

U.S. Abortion Attitudes, Update, p. 186.

Reproductive Health

Cycle Length and Breast Cancer, Update, p. 53.

Fertility Drug and Ovary Tumors, Update, p. 3

Hormone Therapy and Cancer, Update, p. 186.

Induced Abortion Might Elevate a Woman's Breast Cancer Risk in Later Years, see **Abortion**.

Risk of Ovarian Cancer Is Lessened by Childbearing, Pill Use and Hysterectomy, Digest, p. 94.

Service Providers

Abortion Training in Obstetrics and Gynecology Residency Programs in the United States, 1991–1992, see **Abortion**.

Are Primary Care Residents Adequately Prepared to Care for Women of Reproductive Age? T. Conway, T.-C. Hu, E. Mason and C. Mueller, p. 66.

Men at Family Planning Clinics: The New Patients? see **Males**.

MDs Lack Lactation Knowledge, Update, p. 53.

Rural MDs Shun Abortion, see **Abortion**.

Sex Education

Bringing the Fundamentals of Gender Studies into Safer-Sex Education, Viewpoint, J. Lever, p. 172.

Parent and Peer Communication Effects on AIDS-Related Behavior Among U.S. High

School Students, see **Teenagers**.

Sexual Behavior

High-Risk Behavior and Infections, see **Sexually Transmitted Diseases**.

High-Risk Sexual Behavior at a Midwestern University: A Confirmatory Survey, Research Note, J. M. Reinisch, C. A. Hill, S. A. Sanders and M. Ziemba-Davis, p. 79.

Longitudinal Comparison of the AIDS-Related Attitudes and Knowledge of Parents and Their Children, see **Sexually Transmitted Diseases**.

Many Partners=Papillomavirus, see **Sexually Transmitted Diseases**.

Midwestern Teenagers with Many Partners Are More Likely Than Others to Drink Often, Have Low Grades, see **Teenagers**.

Monogamy Is the Rule, Many Partners the Exception Among Most Americans, First U.S. Sex Survey Finds, Digest, p. 37.

Multiple Partners, Risky Partners and HIV Risk Among Low-Income Urban Women, see **Sexually Transmitted Diseases**.

Parent and Peer Communication Effects on AIDS-Related Behavior Among U.S. High School Students, see **Teenagers**.

Relationship of Substance Use to Sexual Activity Among Young Adults in the United States, K. L. Graves and B. C. Leigh, p. 18.

Sex and Fisticuffs, Update, p. 99.

Smoking and Other Risks, Update, p. 141.

Sexually Transmitted Diseases

Gender, Race, Class and Self-Reported Sexually Transmitted Disease Incidence, K. Tanfer, L. A. Cubbins and J. O. G. Billy, p. 196.

High-Risk Behavior and Infections, Update, p. 3.

High-Risk Sexual Behavior at a Midwestern University: A Confirmatory Survey, see **Sexual Behavior**.

HIV's Role in Cervical Dysplasia, Update, p. 3.

Impact of a Comprehensive Chlamydia Prevention Program in Wisconsin, see **Evaluation of Programs**.

Intravaginal Barriers: Reliable Protection Against Pregnancy and STDs? see **Barrier Methods**.

Longitudinal Comparison of the AIDS-Related Attitudes and Knowledge of Parents and Their Children, S. R. Levy, K. Weeks, A. Handler, C. Perhats, J. A. Franck, D. Hedeker, C. Zhu and B. R. Flay, p. 4.

Many Partners=Papillomavirus, Update, p. 140.

Multiple Partners, Risky Partners and HIV Risk Among Low-Income Urban Women, D. A. Wagstaff, J. A. Kelly, M. J. Perry, K. J. Sikkema, L. J. Solomon, T. G. Heckman, E. S. Anderson and the Community Housing AIDS Prevention Study Group, p. 241.

Parent and Peer Communication Effects on AIDS-Related Behavior Among U.S. High School Students, see **Teenagers**.

Predictors of Condom Acquisition After an STD Clinic Visit, see **Barrier Methods**.

Who Gets STDs? Update, p. 52.

Status of Women

Women's Conference: Where Aspirations and Realities Met, Special Report, J. H. Johnson and W. Turnbull, p. 254.

Sterilization

Most Vasectomies Are Performed in Urology Practices by Physicians Using Ligation and Local Anesthesia, Digest, p. 220.

Sterilization Among Currently Married Men in the United States, 1991, R. Forste, K. Tanfer and L. Tedrow, p. 100.

Vasectomy Appears Unlikely to Raise Men's Chances of Developing Either Prostate or Testicular Cancer, Digest, p. 95.

Teenagers

Adolescent Fertility and the Educational Attainment of Young Women, D. H. Klepinger, S. Lundberg and R. D. Plotnick, p. 23.

Early Family Formation Linked to School Dropout, Especially Among Blacks, see **Marriage and the Family**.

Hormonal Implant Is More Effective Among Teenagers Than Oral Contraceptives, Digest, p. 89.

Impact of an Increase in Family Planning Services on the Teenage Population of Philadelphia, M. E. Hughes, F. F. Furstenberg, Jr., and J. O. Teitler, p. 60.

Impact of Requirements for Parental Consent on Minors' Abortions in Mississippi, see **Abortion**.

Is There a Grandma in the House? Update, p. 52.

Longitudinal Comparison of the AIDS-Related Attitudes and Knowledge of Parents and Their Children, see **Sexually Transmitted Diseases**.

Midwestern Teenagers with Many Partners Are More Likely Than Others to Drink Often, Have Low Grades, Digest, p. 40.

More on RESPECT, Letter, R. Herceg-Baron, D. Mann, K. Armstrong, S. Grambs and W. Mahoney, p. 218.

Mother's Attitudes Toward Adolescent Sex, Family's Dating Rules Influence Teenagers' Sexual Behavior, Digest, p. 177.

Parent and Peer Communication Effects on AIDS-Related Behavior Among U.S. High School Students, D. Holtzman and R. Rubinson, p. 235.

Relationship of Substance Use to Sexual Activity Among Young Adults in the United States, see **Sexual Behavior**.

Return of Teenage Implant Users, Update, p. 186.

Sex and Fisticuffs, see **Sexual Behavior**.

Smoking and Other Risks, see **Sexual Behavior**.

Studies Suggest Inherent Risk of Poor Pregnancy Outcomes for Teenagers, Digest, p. 262.

Teenage Pill, Implant Use, Update, p. 140.

Understanding the Impact of Effective Teenage Pregnancy Prevention Programs, J. J. Frost and J. D. Forrest, p. 188.

Was Project RESPECT 'Successful?' Letter, C. Joffe, p. 217.
